Forecast for Wednesday 22 Feb 2023

Weather: Band of rain overnight and at first Wednesday morning, turning to snow down to 600-700m by dawn. Gradually this breaks to showers from the west late morning and through the rest of the day with some limited afternoon brightness developing. Showers dwindling late afternoon and through the evening. Snow level 400-500m in the showers.

Chance of cloud-free hill tops above 600m: 20% becoming 80% by late afternoon.

Low cloud and visibility: Moderate or poor in rain and showers, very poor in snow and within cloud with bases quite extensive from 500m at first, infrequently so from mid-afternoon.
